Installing and Activating a Single-User License for Statgraphics 18

The instructions in this document apply to individuals who have purchased a single-user license. Be sure to have available:

1. The 20-character serial number you received when you purchased the license.
2. The 8-character registration code that was provided with the serial number.

NOTE: If you have already downloaded and installed a trial copy, you may skip Step 1. If you have already created a registration account, you may skip Step 2.

Step 1: Download and Install Statgraphics 18

To use Statgraphics 18, it must first be downloaded by going to www.statgraphics.com/download18. Click on one of the 10 links in the following table found there:

Primary language		
English	32-bit	64-bit
French	32-bit	64-bit
German	32-bit	64-bit
Italian	32-bit	64-bit
Spanish	32-bit	64-bit

This will download a standard Windows installation file. The 32-bit version of Statgraphics 18 runs on computers with both 32-bit and 64-bit versions of Windows. The 64-bit version of Statgraphics 18 requires your computer to be using a 64-bit version of Windows.

When the download is complete, use Windows Explorer to locate and run the file that you downloaded. PLEASE BE SURE YOU HAVE ADMINISTRATOR PRIVILEGES WHEN YOU RUN THE INSTALL PROGRAM. Be sure to execute the setup program by clicking on it with the RIGHT mouse button and selecting "Run as administrator" from the popup menu.

During the installation, most users can select all of the defaults. When complete, an icon will be placed on your desktop similar to the one below:

Step 2: Create a Statgraphics Registration Account

Before you can activate the program, you must register your email address with Statgraphics. To do so, use your web browser to go to *https://register.statgraphics.com*. This will take you to the following page:

Click on "register here" to go to a page where you can set up a registration account:
